As you will recall from our meeting with the Office of Special Investigations (OSI), on 31 March 1980, the Directorate of Operations surfaced two documents which are of interest in the Soobzokov matter: the first being a operations memorandum giving some background information on Soobzokov; the second being a "form V-30", a personal data form on Soobzokov. I now find that there has been some confusion over the acquisition of these documents. The operations memorandum clearly originated by the Department of State. However, contrary to the representations made to Department of Justice in this meeting, it is not clear where the form V-30 originated. We have no evidence that it originated with the Department of State, nor do we know when we received it. I have called OSI to set the record straight on this matter.
